Olive Logan on Woman Suffrege. Mrs. Olive Logan Wirt Sikes writes to

the New York Tribune: A paragraph is current to the effect that both my husband and myself "stand in the front line of the ultraprogressionists of the age in regard to marriage, and the religious ceremony performed by Dr. Collyer they regard as a concession to the prejudices of the unenlightened majority." This state ment is utterly untrue, and because I believe it to be born of your view of the pipes vary in pitch with every change of "woman suffrage question" (as it is called,) I wish to deny it through your columns. If I had not been in some measure associated, for the past two or three years, with that small band of struments which have been advertised women who have pleaded for the exten- as Pipe Cabinet Organs have contained sion of the franchise to our sex, this statement would never have been made. I have steadily defended the holy institution of marriage in all my utterances touching the subject. I have earnestly contended that it is the basis stantly restored to the same pitch with of all that is best and most desirable in this life, and I have even gone so far, under the pressure of popular clamor, as to say that if woman suffrage means free love, I am opposed henceforth to woman suffrage. The subject of woman's enfranchisement has become so loaded with obnoxious features that what once seemed a fair protest against the tyranny of taxation without representation (the principle for which our forefathers fought and died) is now becoming a nuisance to audiences. It is also becoming a nuisance to me, and I have resolved to confine myself in future to a line of remark which has done more toward winning me such fame and fortune as I possess than anything I have said about suffrage. Only let me do my work in my own way, let me use my maiden name as a nom de plume, and don't let people call me "an ultra-progressionist

Says the Hartford Times: The drowning of Mr. Lumm and his daughter in Pamphlets, maps and full information, as well as East Haven, recently, will result in a the bonds themselves, will be firmished on applinumber of lawsuits. Mr. Morris has cation to Jay Cooks & Co., Philadelphia, New been appointed administrator of the es- York and Washington, and by most Banks and tate, which is situated in Montowese, Bankers throughout the country. and has increased 200 per cent within a few months. Mr. Lumm had transferred his property to a friend to keep it out of his wife's hands, and this will annoy the administrator some. A suit has been brought against the town of East Haven by Mr. Morris for \$30,000. Another suit will be instituted to decide who will pay for the horse, the State or the town. The most complex question arises as to who will be Mr. Lumm's heir. If it is proven that he died first, the property would have gone to the daughter and then back to the mother. If the daughter was drowned first, then the property goes to a half sister of Mr. Lumm's, who lives somewhere in the West, but just where is not known. Altogether, it will be a most interesting legal contest, and should the suit against the town of East Haven be suc cessful, there will be considerable prop erty for the heirs.

Dr. GUTHRIE in a recent address tole a very suggestive story to this effect A friend of his, questioning a little boy said: "When your father and mothe forsake you, Johnny, do you know who will take you up?" "Yes, sir," said he. "And who?" said the friend. "The police," was Johnny's answer.

Megesers, J. N. Harris & Co., Ciacinanti. Ohio:

Gentlemen—I heard one of my customers speak in such high terms of Allees's Lung Baisem to-day that I thought I would write you the substance of his statements. He says his mother, who is now sixty years of age, has surfrered with consumption for several years, and has been under the care of all on best physicians, but never received any permanent benefit then she resorted to every kind of Cough and Lung Balsam that could be procured for her, but all to no arail. She still grew worse, until she was confined to her bed; and when she was seized with a paroxysm of coughing she would lose the power of respiration, and they were compelled to resort to various means to restore breathing; and while she coughed so hard she could not expectorate anything, and the family and friends had given up all hopes of her recovery. Her son noticed the advertisement of Allen's Lung Balsam in the Christian Advocate, and they thought they would procure and try it. They commenced giving her the Balsam at 5 o'clock P. M., as directed, a dose every hour until midnight; then she took another spell of coughing, and expectorated a mouthful of dark, yellow matter, which was something she had not been able to do for sometime. They continued to give her the Balsam until morning, and then she began to expectorate freely, and within three hours she expectorate to improve. She now sits up all day, and can walk about the house and take considerable out-door exercise. Her son bought more of the Balsam to-day, and he is recommending it very highly to every one.

Yours respectfully,

A. C. JOHNSON, Druggist.

discoveries of modern science, few are of mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast throughout this and other countries, has shown that it does

control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cared by this preparation, are public-ly known, so remarkable as hardly to be be-lieved, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and con-vinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multi-tudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily

Originally the product of long, laborious, and successful chemical investigation, no cost or toll is spared in making every bottle in the utmost possible perfection. It may be confidently re-lied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

They are the GREAT BLOOD PURI-FIER and A LIFE GIVING PRINCIPLE, carrying off all poisonous matter and restoring theblood to a healthy condition. No person can take these Bitters according to directions and remain long unwell provided their bones are not destroyed by mineral

poison or other means, and the vital organs wasted They are a Gentle Purgative as well as a as a powerful agent in relieving Congestion or Inflamintion of the Liver, and all the Visceral Grans.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. For Inflammatory and Chronic Rheumaism and Gout, Dyspepsia or Indigestion. Billions, Remittent and Intermittent Fe-vers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most accessful. Such Diseases are caused by Vitlated

Blood, which is generally produced by derangement of the Digestive Organs. DYSPEPSIA OR INDIGESTION, Bend ache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Painitation of he Heart, Inflammation of the Lungs, Pain in the reions of the Ridneys, and a hundred other painful sympoms, are the offsprings of Dyspessia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and in parting new life and vigor to the whole system.

FOR SKINDISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipe-ias, itch. Scurts, Discolorations of the Skin. Humors and Diseases of the Skin. of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Hitters. One bottle in such cases will convince the most incredulous of their cura-tive effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living mensters of disease. No System of Medicine, no vermicures, no anthelminities will free the system from worms like these Bitters.
